

**REMARKS**

This Supplemental Amendment supplements that first Amendment recently filed by facsimile on July 29, 2004 in this case.

This Amendment further clarifies claim 12 and specifically recites that the light emitting source is mounted on a wall of the carrying device.

None of the cited disclosures show or suggest the mounting of a light source on one or more walls of the carrying device as claimed, wherein that source, when activated, visually indicates an incoming call exteriorly of the carrying device.

References in the Remarks of the preceding Amendment to the "Wald Publication" included a typographical error. "Wald" Publication should be -Wang Publication No. US2002/0086714A1)-.

Respectfully submitted,  
WOOD, HERRON & EVANS, L.L.P.
